Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	4 April 2026
Team ID	SWTID-2026-3550
Project Name	Streamlining Ticket Assignment For Efficient Support Operations
Maximum Marks	4 Marks

Functional Requirements

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration through Form Registration through Gmail Registration through LinkedIn
FR-2	User Confirmation	Confirmation via Email Confirmation via OTP
FR-3	User Login	Login using Email & Password Secure authentication
FR-4	Ticket Creation	Create support tickets with issue details Select category/type of issue
FR-5	Ticket Classification	Automatically classify tickets based on type Categorize into groups (Certificates / Platform)
FR-6	Automated Ticket Assignment	Assign tickets to appropriate group Assign based on roles and predefined rules
FR-7	Ticket Management	Update ticket status (Open, In Progress, Closed) Reassign tickets if required
FR-8	Notifications	Send notifications on ticket creation and updates Email alerts to users and support team
FR-9	Dashboard**	View ticket status and history Monitor assigned tickets

FR-10	Admin Controls	Create/manage users Assign roles and groups Configure workflows

---

Non-Functional Requirements

NFR No.	Non-Functional Requirement	Description
NFR-1	Usability	The system should have a simple and user-friendly interface for both users and support teams.
NFR-2	Security	Ensure secure authentication, role-based access control, and data protection.
NFR-3	Reliability	The system should consistently assign tickets correctly without failure.
NFR-4	Performance	Ticket assignment and system response should occur within minimal time (real-time or near real-time).
NFR-5	Availability	The system should be available 24/7 with minimal downtime.
NFR-6	Scalability	The system should handle increasing number of users and tickets efficiently.

Summary

The above requirements ensure that the system:

- Automates ticket routing efficiently
- Maintains secure and reliable operations
- Provides a scalable and user-friendly solution
